

Used Honda Jazz inspection checklist

What to check on a used Jazz, petrol or hybrid, what a problem looks like, and when to walk away.

SHUFTI
shufti.com.au

COVERS **GE 2008–2014** **GK 2014–2020**

☐ **Tick it** if it's fine. **Cross it** if it isn't, and note what you found so you can price it into your offer.

! Safety critical: affects how safely it drives or protects you in a crash. Best to have a mechanic check it before you buy.

\$ Negotiate: costs money to fix, from wear to major repairs. Get a quote and take it off the price.

0 Before you go

- ☐ **Get the VIN and rego** before you travel. A seller who won't share them is a red flag on its own.
- ☐ **Know what you're looking at:** petrol or hybrid; manual, regular auto or CVT. Hybrid and CVT checks below are marked.
- ☐ **Ask how it was used:** first car, ex-rental, delivery driving or city only?
- ☐ **Ask for the engine to be cold,** go in daylight, and bring a torch, paper towel and a friend.

1 Exterior

- ☐ **Panels and paint.** Uneven gaps, mismatched colour or overspray on seals and trim mean crash repair. **\$**
- ☐ **Parking knocks.** Scraped bumper corners, dented doors and scuffed mirrors. Check behind small dents for bent metal. **\$**
- ☐ **Paint and hail.** Faded or peeling paint on the roof and bonnet; small dimples seen at a low angle to the light. **\$**
- ☐ **Wheels.** Kerbed alloys or cracked wheel covers. A badly kerbed wheel can be bent, causing vibration. **\$**
- ☐ **Lights and glass.** All lights work; windscreen free of chips in the driver's view. Hazy, yellowed headlight lenses cut light output. **\$**
- ☐ **Rust** on older cars: wheel arches, sills and the bottom of the tailgate. **\$**
- ☐ **VIN plate** (in a door frame or under the bonnet) is there, untouched, and matches the papers.

2 Under the bonnet

- ☐ **Engine oil** between the dipstick marks, brown not black. Old, dark oil means servicing has been skipped. **\$**

- ☐ **Coolant** at the mark and brightly coloured. Rusty or oily coolant, or regular top-ups, needs a mechanic. **\$**
- ☐ **Brake fluid** (small tank at the back of the engine bay) is clear to light amber, not dark. **\$**
- ☐ **Belts, hoses and battery.** No cracked belts or swollen hoses. A weak 12V battery can stop a hybrid starting. **\$**
- ☐ **Leaks.** Wet oil on the engine is a leak. A freshly degreased engine on an older car can be hiding one. **\$**
- ☐ **Engine mounts.** With the bonnet open, have a friend select Drive and Reverse with a foot on the brake: the engine shouldn't jump. **\$**
- ☐ **Cold start.** Starts easily and settles to a smooth idle. A rattle for the first few seconds, or smoke, needs a mechanic. **\$**

3 Underbody and wheels

- ☐ **Tyre tread** above the wear bars, worn evenly. Wear on one edge only means the wheels are out of line, often from hitting kerbs. **\$**
- ☐ **Tyre age.** The 4-digit code on the side is the week and year made (2319 = week 23, 2019). Over ~6 years: budget for new ones. **\$**
- ☐ **Rust and crash repairs.** Rust on the floor or around the suspension; bent metal, fresh welds or new black coating in one spot. **!**
- ☐ **Drips** under the car, and oil stains where it's normally parked. **\$**
- ☐ **Suspension.** Push down on each corner: it should bounce back once and settle. Oily shock absorbers leak. **\$**
- ☐ **Brakes.** Deep grooves or a raised edge on the discs mean they're due. **\$**
- ☐ **Exhaust.** Heavy rust, holes or loose heat shields that rattle. **\$**

! Stay safe. Never go under a car held up only by a jack, and never open the radiator or coolant cap on a hot engine. Keep hands, hair and loose clothing clear of fans and belts when the engine is running, and do checks under the bonnet with it switched off where you can. On the test drive, hold a current licence, confirm the car is registered and insured, obey road rules, and only brake hard when the road behind is clear. Meet in a safe, public-facing place, take someone with you, and don't carry large amounts of cash to a viewing.

4 Interior and electrics

- ☐ **Warning lights.** Key to "on": every dash light comes on, then goes out once running. An airbag, brake, engine or hybrid warning that stays on needs explaining. !
- ☐ **Rear seats.** Fold flat and flip the bases up, then lock back in place. Broken latches and torn trim show a hard life. \$
- ☐ **Water leaks.** Damp carpet, a wet boot floor or a stained headlining. Lift the boot floor. \$
- ☐ **Seatbelts** pull out fully, retract and latch, with no fraying. !
- ☐ **Air con** blows cold within a minute or two, without a musty smell; heater gets hot. \$
- ☐ **Electrics.** Screen, Bluetooth, reversing camera, windows and mirrors. Count the keys. \$

5 Test drive

- ☐ **CVT automatic.** Smooth, steady pull with no judder, surging, slipping or loud whine. Ask when its fluid was changed. \$
- ☐ **Regular auto.** Smooth changes with no slipping, flare or thump into Drive or Reverse. \$
- ☐ **Manual.** In 4th at 50 km/h, floor it: if revs rise faster than speed, the clutch is slipping. \$

- ☐ **Hybrid.** The engine stops at lights and restarts smoothly as you move off, with no surges or warnings. \$
- ☐ **Brakes.** Firm pedal; stops straight with no pulling, pulsing or grinding. !
- ☐ **Steering and suspension.** Drives straight; no knocks over bumps. A hum that grows with speed is often a wheel bearing. \$
- ☐ **Afterwards,** check for new drips, a steady temperature gauge and no hot smells. \$

6 Documentation

- ☐ **Seller's ID** matches the rego papers, and the VIN matches on the papers and VIN plate.
- ☐ **Service history.** Logbook stamped on time, with receipts. Ask when the gearbox fluid was last changed, if ever. \$
- ☐ **Rental or delivery records.** Ask directly whether it was a hire or delivery car, and ask for the log. \$
- ☐ **Hybrid: battery.** Ask whether the hybrid battery has been tested or replaced, and get the paperwork. \$
- ☐ **Parts and servicing.** Honda stopped selling the Jazz here in 2021. Ask where it's been serviced, and check parts prices for any repair you'd need. \$
- ☐ **Rego and roadworthy.** Rego checked online; roadworthy supplied if your state requires one on sale. \$

What this guide can't tell you about the Jazz you're looking at

3+

recalls on Jazzes built since 2008*

10

common faults reported on Jazzes built since 2008*

2,005

owner complaints on Jazzes (also sold as the Fit) built 2009–2020*

Money owing, stolen or a write-off?

A tidy car can hide all three.

What's each fault worth?

Shufti's negotiation coach turns it into leverage.

A Shufti inspection covers all of that, plus:

Guided checks for the exact car you're inspecting

PPSR and government recall checks included

Crosschecks 3M+ recalls and owner complaints

Spots issues from your photos and audio

Test drive routes with turn-by-turn navigation

Negotiation coach with repair cost estimates
